Optional, for add-on tinting treatment:

- Intensive **tint**
- Intensive **Cream Developer Oxidant**
- Biosmetics **Tinting Brush – slanted tip**
- Intensive **Tint remover**

PREPARATION

- **Please, gently massage the sachets before opening** to mix and to activate ingredients!
- Complete client data record and position client comfortably, have her or him lie down, offer a cozy blanket. Protect client's hair with a head band and drape a towel or bed roll over the client's upper body to protect clothing and sanitize your hands.
- Remove any traces of makeup from eyelids and eye area using the *Intensive Eye Make-up Remover Foam* and a clean cotton pad and if desired, take a before photograph.
- Comb through the brows using a *Biosmetics disposable Mascara Wand* in an upward stroke.

STEP 1:

- **Apply a thin coat of *Biosmetics Lash n Brow Bonder***. Carefully, straighten the hair, setting the hair in the right direction and shape with a clean *Biosmetics Mascara Wand*. Ensure sparse areas are covered, curly hairs are straightened and brow hair is in the right direction to add shape and definition to the brows.
- Important: if not done yet, lightly **massage sachets** before opening!
- **Apply a thin coat of *Biosmetics Cream No 1 – Waving Lotion*** to the brow hair by using the *Biosmetics Microbrushes*. Using a *Biosmetics disposable Mascara Wand*, brush brows in the appropriate direction ensuring each hair gets covered. Leave on for appropriate time, depending on the thickness and density of the hair.

Processing time:

Very fine brows:	3-4 minutes
Fine or tinted brows:	4-5 minutes
Natural healthy brows:	5-6 minutes
Course healthy brows:	6-7 minutes

- **Remove *Lotion No 1* with a *Biosmetics Lash Wiper – Lotion wiping brush* in the same direction of hair growth.** Discard wiping brush.

STEP 2:

- **Apply a small amount of *Biosmetics Cream No 2 – Neutralizer Lotion*** to the brow hair by using the *Biosmetics Microbrushes*. Brush brows with a disposable *Biosmetics Mascara Wand*, brush brows in appropriate direction to ensure each hair gets covered.

Processing time:

Very fine, fine and tinted brow: 5 minutes

Natural healthy and course healthy brows: 6 minutes

- **Remove *Lotion No 2* with a new *Biosmetics Lash Wiper – Lotion wiping brush***, place used Wiper in bin.

STEP 3:

Optional (RECOMMENDED) Tint Service:

- Prepare *Intensive* tint and apply using the *Biosmetics* tint brush with slanted tip.
 - Remove the tint after 1-3 minutes (**only!**) using a clean Lash Wiper. Or a lint free cotton bud
- **Apply *Cream No 3 – Conditioning Lotion Serum*** over the brows using a new *Biosmetics Microbrush* and apply a few drops of *Intensive Relaxing Eye Cream* on the clients' eye area **to finalize and to upgrade your service**. The *Conditioning Food Lotion* is a leave-in Serum.
 - Take an "After" photograph.
 - **Explain aftercare** (see next page) to client and give him/her a printed copy to take away **along with the *Biosmetics Lash n Brow Moist Pen*** ensuring daily moisturizing kick.

•

IMPORTANT AFTERCARE

The aftercare advice is given to ensure fully understand what should and should not be done 24-48 hours post treatment for longevity of the Intensive Brow Lamination results.

- **Keep brows dry** for 24-48 hours!
- Use the ***Biosmetics Lash n Brow Moist Pen*** at least once a day.
- Do not apply any make-up or receive any other eye treatment for least 24-48 hours after your treatment.
- Avoid rubbing the brows.
- Avoid swimming/sauna/sweating for 24-48 hours.
- If any stinging or swelling occurs, keep applying a cold dampened cotton pad or cold compress. If it persists seek medical advice!

If the aftercare guidelines are followed with utmost care the Intensive & Biosmetics Brow Lamination results can last 4-6 weeks.
